

LEAD ME TO YOU

By AJ Cheek & Phillip LaRue

Verse 1

Across the sky, across the sea
Mountains high but they won't stop me
Oh God I need you closer
Dessert wide, valley's deep
Hear my cry, I'm on my needs
Oh God I need you closer

Chorus

Every step I take every breathe I make may it lead me to you
Even when I break when I lose my way bring me back to you
Cause the closer I get, I'm learning what love is
Ever step I take may it lead me to you

Verse 2

When my soul is tired and worn thin
on this road no I wont give in
Oh God I need you closer

Chorus

Every step I take every breathe I make may it lead me to you
Even when I break when I lose my way bring me back to you
Cause the closer I get, I'm learning what love is
Ever step I take may it lead me to you

Bridge x2

The closer I get the more I see what grace is
So draw me near and lead me there

Chorus

Every step I take every breathe I make may it lead me to you
Even when I break when I lose my way bring me back to you
Cause the closer I get, I'm learning what love is
Ever step I take may it lead me to you
